Fellow Locust Victims o I mean Volunteers, I returned home for several hours today to find a big package for our Park Police friends, they have sent each one of you something very special and I would like to mail them to you next week when I get home. Please send me the address you would like this sent to – make sure you give me the full name and address city state zip,

On the other subjects – our friends in Tulare country are putting pressure on the USFS and further disrespecting who you are and what we accomplished under the circumstances. It is time you let the Board know your feeling and concerns

Here is the contact info – David is the president of the board
